FOREWORD

This listing, published by the Defense Contract Administration Services Region (DCASR), Chicago, contains the National Industries for the Blind/ National Industries for the Severely Handicapped (NIB/NISH) Work Centers in the three state area who have registered their capabilities and desires with this office for consideration as potential subcontractors and vendors. The listing does not constitute an endorsement or recommendation by the Government of any of the Centers listed herein. It is hoped that this listing will provide a service to Industry and Government agencies in securing more competition and providing increased opportunities for Work Centers to participate in DoD programs. Workshops offer a wide variety of services, ranging from simple sorting to highly complex assemblies. They welcome "nuisance" jobs which can cut costs for contractors. When seeking subcontractors, consider using the skills and services of a NIB/NISH Work Center.

BACKGROUND

Javits-Wagner-O'Day (JWOD) Act:

- The Wagner-O'Day Act of 1938 created The Committee for Purchases of Blind-Made Products.

- In 1971, the Wagner-O'Day Act was amended. It became the Javits-Wagner-O'Day (JWOD) Act which extended provisions to include other severely handicapped individuals. The JWOD Act established The Committee for Purchases from the Blind and Other Severely Handicapped.

- Purpose of JWOD is to increase employment opportunities for blind and other severely handicapped individuals and, whenever possible, to prepare them to engage in normal competitive employment.

- Impact of JWOD is through "set-aside" of prime contracts for NIB/NISH participation.

National Industries for the Blind (NIB)

National Industries for the Blind (NIB) was formed in 1938 by the participating workshops, to promote the welfare of blind persons in general and blind workers in particular, and to service as the liaison between the Federal Government and workshops for the blind under the Wagner-O'Day Act. NIB has an encompassing belief that every blind and multihandicapped blind individual who wants to work should be afforded the opportunity.

National Industries for the Severely Handicapped (NISH)

National Industries for the Severely Handicapped (NISH) is the Central Non-Profit Agency designated by The Committee for Purchases from the Blind and Other Severely Handicapped to represent all sheltered work centers employing severely disabled individuals (other than blind) in supplying goods and services to the Federal Government under the Javits-Wagner-O'Day Act. NISH was established in 1974 at the suggetion of Congress and is supported by a coalition of national agencies long connected with serving handicapped individuals. NISH provides assistance to work centers nationwide through seven regional offices. DCASR, Chicago area is served by:

NISH North/Central Regional Office
3158 Des Plaines Avenue, Suite 11
Des Plaines, IL 60018
Phone: 312/699-8890
Contact: Mr. Robert Pokora, Regional Director

Defense Contract Administration Services (DCAS) Role

The Defense Logistics Agency (DLA) NIB/NISH Program is considered an outreach effort, and therefore, it is the responsibility of the DLA Small Business Offices. Small Business Specialists, located in DLA buying centers, conduct their outreach programs to identify requirements which may be set-aside under JWOD for NIB/NISH Sheltered Workshops. The DCAS Small Business Specialists have the responsibility to assure that prime contractors are aware of the DLA initiative relating to NIB/NISH, and for encouraging the primes to extend subcontracting opportunities to the centers. While subcontracts are not eligible for set-aside under JWOD, they do represent opportunities for increased employment and income to work centers, and they provide an excellent basis for developing production capability and experience which may later be helpful in pursuing JWOD contracts.

This listing of work centers located in Illinois, Indiana, and Wisconsin was prepared as a part of the DLA initiative to match prime contractors with capable work centers. You are strongly encouraged to use this listing to the greatest possible extent.

Remember - Not only is giving support to NIB/NISH Work Centers a good business practice, it will also make prime contractors eligible for consideration for Regional and National DLA awards.

Richard Tait, Workshop Supervisor

PRIME MANUFACTURING/SERVICE CAPABILITIES:

We are nor currently doing any prime manufacturing, but we are willing to consider possibilities and increase capabilities, if necesssary, on a case by case basis.

PRESENT SUBCONTRACTING CAPABILITIES:

Assembling, bagging, boxing, collating, counting by hand or weight, coupon redemption sorting, cutting to length, direct mail stuffing, disassembling, drill press work, filing (metal, wood, etc.), bench grinding (small items), folding, gluing and pasting, heat sealing, inspecting, labeling, loose-leaf book assembly, milling (light metal - limited), packaging, polishing, simple salvage, sanding, sub-assembly, separating die-cut items, sorting, stamping (rubber, ink), stapling (by hand or electric), stenciling, tagging (wiring and stringing), taping, wire cutting and bending.

SUBCONTRACTING POTENTIALS:

Our potentials include the above capabilities. We also are willing to evaluate and consider other jobs on a case by case basis.

EQUIPMENT AVAILABLE:

Drill presses, grinders, wood working equipment (assorted saws, drills and router), air compressor (4.6 SCFM at 40 PSI), and small hand tools (knives, scissors, screwdrivers, etc.)

LOADING AND UNLOADING FACILITIES:

Our loading and unloading are consists of a dock that measures approximately 13.5 feet by 28 feet. We have one 1976 Ford F600 panel truck with cargo body, which is used for pick ups and deliveries. Two wheeled catrs, dollies, and a hydraulic pallet truck used to load and unload materials.

BONA VISTA INDUSTRIAL SERVICES
1220 E. Laguna, P.O. Box 2496
Kokomo, IN 46904
PHONE: 317/457-8273
Jill Wesoloski, President
William E. Fike, Director of Industrial Services

PRIME MANUFACTURING/SERVICES CAPABILITIES:

Janitorial services.

PRESENT SUBCONTRACTING CAPABILITIES:

Bulk mailings, packaging, heat sealing, shrink wrapping, wave soldering, hand soldering, janitorial services, small parts assembly, repair/redesign.

SUBCONTRACTING POTENTIALS:

Food service/food preparation.

EQUIPMENT AVAILABLE:

Two industrial fork trucks, two 1,000lb hydraulic hand trucks, two 2-wheel hand trucks, one 500lb floor scale, seven electronic scales, one electric mailing scale, one mailing machine, one 1/2 inch bander, one 3/4 inch bander, wave solder pot and conveyor, twelve hand solder stations equipped, 10 ton box type truck, 3/4 ton pick up truck.

LOADING AND UNLOADING FACILITIES:

Presently we have two locations with a total of five slots at our docks for loading and unloading. Ship products to all 50 states from centralized location via common carrier. Also make deliveries within Indiana with our truck.

REMARKS:

We are able to provide customized contracts, quality control, highly skilled employees and quick turnaround.

CARDINAL CENTER, INC.
